Dear Sir:

Attached is the report on minority group employment requested in your memorandum of 28 April 1961.

The information concerning Negro and Oriental groups has been obtained by observation and is quite accurate. Since we do not require applicants to report race or religion we are unable to produce an accurate count on other minority groups. Puerto Ricans and Spanish Americans also are not identified as such on machine records and even a manual search of all Official Personnel Folders would produce only an inaccurate estimate at best.

Information concerning the total number of Agency employees is classified and therefore must be omitted from this report.
